

COROMANDEL INTERNATIONAL LIMITED
ENVIRONMENTAL, QUALITY, OCCUPATIONAL HEALTH &
SAFETY MANAGEMENT POLICY

We at Coromandel International Limited are committed to supplying farm inputs consisting of Phosphatic fertilisers and other fertilisers, Speciality Nutrient fertilisers and Crop Protection products, which satisfy the requirements of customers, and while doing so, shall protect environment, health and safety of all employees and public by:

- Establishing and maintaining management systems to promote product quality, environmental pollution control, process safety, occupational health and safety of all employees complying to international standards, good business practices, legislative and other requirements.
- Committing ourselves to prevention of injury, ill-health and continual improvement of quality, safety, health and environmental performance through setting measurable performance objectives.
- Striving to achieve high degree of overall performance by imparting requisite knowledge, skills and competency to employees and contract workmen, and ensuring their participation in various continual improvement measures.
- The policy would be reviewed keeping in mind the changes and the business scenarios to enable and give direction for the performance measurement of the organisation in toto.
